N.A. - Not available. Other Revenues include coal lease rentals, well name change fees, drilling licence fees, and miscellaneous fee categories. The Oil Royalty & Production Tax column includes Oil Export Tax receipts for the years 1982-85 (1982 - \$349 mill., 1983 - \$55 mill., 1984 - \$85 mill., 1985 - \$66 mill.).

Where there are less than three producers of a mineral commodity, mineral values have been aggregated as required under The Mineral Resources Act.

^{1.} The Coal Royalty & Production Tax value has been included in the "Other Mineral Royalty" section of Table 1 - 1 - 6.

Industrial Minerals include potash, salt and sodium sulphate. Other Revenues include lease rentals and other miscellaneous fee categories.

Other Revenues from Metallic Minerals include lease rentals and claim filing fees.

Other Mineral Revenues include the Mineral Rights Tax, fees from sale of publications, and other miscellaneous service revenues.

Other Mineral Royalty & Tax Includes: Coal, Gold, and Uranium Royalties and Tax.

Where there are less than three producers of a mineral commodity, provincial revenue information has been aggregated as required under The Mineral Resources Act.

The Point of Sale does not reflect the ultimate destination of the gas.

This Table has been reformatted to more accurately reflect Gas Sales information that is reported at the Producer level.

Average Fieldgate Price (\$/10³m³) has been reported excluding "Line Loss" as this volume has no relevant sales value. Average Gross Price (\$/g|) reflects only those sales that are sold on a \$/g| basis.

For 1983 to 1995, volume and value of associated gas sales reflects all associated gas deliveries from the wellhead. Pre-1983 data reflects only that volume of associated marketable gas sold from gas plants.

All Natural Gas Sales Values from 1996 and forward are now included in Table 2 - 2 - 9

NOTES: This Table replaces Table 2 - 2 - 6 and Table 2 - 2 - 8 from 1996 onward.

- The Point of Sale does not reflect the ultimate destination of the gas.

- The Average Fieldgate Price (\$/10³m³) has been reported excluding "Line Loss" as this volume has no relevant sales value.

Notes: All wells have a Finished Drilling Date within the calendar year. Status for Standing Cased wells derived from initial objective. Re-entry wells are counted as new wells drilled but re-entry metres are not included in Metres Drilled totals. Strattgraphic test wells and abandoned wells with an initial well objective related to service are included in Abandoned Dry Holes totals.

* Includes potash, potash water disposal and gas cavern wells.

Note: All wells from 1987 forward have a Finished Drilling Date within the calendar year. Well totals prior to 1987 include all wells with a Completion Date within the calendar year regardless of Finished Drilling Date.

Prior to 1987, data for Standing Cased walls and Exploratory or Development well abandonments are not available and Abandoned Dry Holes totals exclude known potash wells.

Prior to 1984, Miscellaneous category figures are not available.

Prior to 1953, aggregate wells were not defined as Exploratory or Development.

Re-entry wells are counted as new wells drilled.

Stratigraphic test wells and abandoned wells with an initial well objective related to service are included in Abandoned Dry Holes totals.

Exploratory category includes Outpost, New Pool Wildcat, New Field Wildcat, Deeper Pool Test, and Other (stratigraphic test, potash, potash water disposal, re-entry and re-abandon, gas cavern, and lease fuel wells).

2. Development category includes Development and Development Service Wells.

Notes: Wells Drilled from 1987 have a Finished Drilling Date within the calendar year. Due to system limitations, well totals prior to 1987 include all wells with a Completion Date within the calendar year regardless of Finished Drilling Date.

Re-entry wells are counted as new wells drilled, but re-entry metres are not included in Metres Drilled totals.

1. Excludes dual completions or multi-zone.

2. Service includes water source, water disposal, injectors, cavern storage wells, etc.

3. Includes Oil to Service Well, Oil to Gas, and Oil to Oil recompletions.

4. Includes Oil to Oil, Gas to Oil, and Service Well to Oil recompletions.

5. Includes Gas to Oil and Gas to Gas recompletions.

6. Includes Oil to Gas and Gas to Gas recompletions.

Note: All wells (including re-entry wells) have a completion date within the calendar year.
